

United States Air Force Museum

Blazing Galactic Trails: Mars Exploration

Students in grades 4 through 6 are invited to attend a special presentation in our Carney Auditorium on past, present and future explorations of the planet Mars. Learn fun facts about Mars, robotics and space exploration. Teachers will receive information on follow-up activities that can be done back in the classroom!

Space Day
May 6, 2004
10:00—11:15 a.m.

To register your class for this program, please contact us at:
